# Take your concept to prototype in 90 days

and show off the finished product for a chance to win
**$25,000 in development grants and prizes**

Get involved today!

## What is Invent Oregon?

The Invent Oregon Collegiate Challenge is a competition for college and university innovators and entrepreneurs with ideas for inventions addressing today's most pressing problems. Through the Invent Oregon program, students receive up to $2,500 in development grants to take their invention from an idea to a working prototype. At the Invent Oregon finals, students present their invention prototype and compete for cash prizes of up to $30,000.

The first stop on the **#RoadtoInventOR** involves participating in your school's local competition. Selected students will move on to the Invent Oregon Bootcamp and Semifinals, which will take place April 24-26, 2020 in Portland. The 2020 Invent Oregon Collegiate Challenge Finals will take place June 25-26, 2020.
