

The Invent Oregon Collegiate Challenge is the state's largest prototyping competition for college and university students.

Invent Oregon is designed to support student teams focused on hardware-driven inventions that can be brought to market to positively impact Oregon communities. Student teams participating in Invent Oregon will receive up to \$2,500 in prototyping grants leading up to the final competition to develop their invention.

Connections | Visibility | Student Engagement

As an Invent Oregon partner school, you are recognized as one of the leading institutions nurturing the next generation of Oregon's inventors and entrepreneurs, marking your place within the Oregon innovation ecosystem.

Invent Oregon is an opportunity to build strong relationships and collaborate with industry leaders, showcase your innovative program and celebrate student successes.

2020-2021 Invent Oregon Timeline

Join us on the #RoadtoInventOR 2021!

September 7, 2020 Applications for local challenges at partner schools begin to open

November 2020 - April 2021 Local challenges are held at partner schools – Each partner school will host a local competition to identify 2 semifinalist teams to participate in the Invent Oregon semifinals. Semifinalist teams will be decided by each partner school at their local competition by a transparent, competitive process to be determined by each respective school.

April 23-25, 2021 Invent Oregon Bootcamp and Semifinals

June 24-25, 2021 Invent Oregon Collegiate Challenge Finals
